(Supersedes CR 82-11004
December 1984)*

PREFACE

The *Directory of East German Officials* identifies individuals who hold positions in selected party, government, economic, scientific, and other public organizations. It also provides a guide to the internal structure of some of these organizations.

Dates of Information. The date columns list the date an individual either assumed or was first identified in a position and his or her most recent identification in that position. The right-hand column is selectively updated approximately every two months when information is available. It does not include dates for members of the Central Committee, Central Auditing Commission, and Central Party Control Commission of the SED; the Central Auditing Commission of the DBD; and Parliamentary Groups of the People's Chamber on the assumption that the incumbents hold these positions for a specified term.

Transliteration. German uses the Latin alphabet with the additions of a ligature and of diacritical superscript umlauts over the letters *a*, *o*, and *u*. This directory renders the ligature as *ss*, omits all diacritics, and transliterates names into their commonly accepted English equivalents.

Personal Names. German names consist of a family name and one or more given names. This publication lists the full name of each individual whenever it is known. The family name appears first in bold type, followed by the given name. A family or given name occasionally consists of a double name that appears in a hyphenated form.

Additional Directory Entries. The directory includes political party affiliation for each individual whenever it is known or can be assumed by the position held. It also lists some academic degrees and military, police, security, and ecclesiastical ranks. The names of organizational components are standardized. Street addresses, transliterated names, and founding dates are provided for some organizations. Many economic and commercial organizations are listed by a cable designation or by a commonly known transliterated name.

An index of major organizations and a personality index follow the directory listing. Duplicate names in the personality index refer to different individuals.

V. Regional and Municipal Party and Government Officials

East Germany is divided into 14 districts (Bezirke), each of which is named for its capital city. In addition, the city of East Berlin also has district status. Each bezirk has its own political party organizations, district committees for mass organizations, and local government apparatus.

Date of Information
Earliest Latest

East Berlin Bezirk

(East Germany claims the city of East Berlin as its national capital. Of the four wartime Allied powers that still technically control Berlin, only one--the Soviet Union--formally recognizes East German sovereignty over East Berlin; France, Great Britain, and the United States do not.)

GDR-US Trade and Economic Council			
(Handels- und Wirtschaftsrat DDR-USA)			
(The GDR-US and US-GDR Trade and Economic Councils are separate entities with the common goal of furthering bilateral foreign trade relations. The GDR council consists of government officials and representatives of state-run foreign trade enterprises. The US council consists entirely of representatives from the business community. The first plenary session of the two councils was held in Washington in June 1977. The venue of the annual sessions alternates between the two countries.)
